Comfort Indicator Panel

CTEK Comfort Indicator Panel (Part No. 56-380, 56-531) is designed and developed to make the maintenance of the battery in the vehicle easy and convenient. Comfort Indicator Panel easily shows the status of the battery and makes sure that the battery can always get the care it needs. It is perfectly suited in the standard panel on the vehicle. CTEK Comfort Indicator Panel can prolong the life expectancy of the battery as it makes sure it can always be fully charged and it indicates when the harmful sulfation process begins.

Designed to fit US 800, MULTI US 3300, MULTI US 7002, US 0.8, and MUS 4.3 battery chargers.

Comfort Connect Indicator Eyelet

CTEK Comfort Indicator Eyelet (Part No. 56-382) is designed and developed to make the maintenance of the battery in the vehicle easy and convenient. Comfort Indicator easily shows the status on the battery and makes sure that the battery can always get the care it needs. It is perfectly suited for permanent installation on batteries that are hard to reach, for example on the motorcycle, lawn mower and Jet Ski. CTEK Comfort Indicator can prolong the life expectancy of the battery as it makes sure it can always be fully charged and it indicates when the harmful sulfation process begins.

Designed to fit US 800, MULTI US 3300, MULTI US 7002, US 0.8, and MUS 4.3 battery chargers.

CTEK Multi US 25000

CTEK MULTI US 25000 (Part No. 56-674) is an 8-step, fully automatic primary switch mode battery charger. A powerful charger for 12V batteries that require rapid charging such as in garages, RV's, boats and of course, cars. Unlike old traditional battery chargers, CTEK chargers are designed with focus on simplicity, safety and flexibility.

CTEK Multi US 7002

The MULTI US 7002 (Part No. 56-353) is the ideal battery charger for your caravan, car and boat. The battery charger is well suited for all-year use. Thanks to its SUPPLY mode, the battery charger provides power even without a battery. The SUPPLY mode is indispensable when changing the battery as you avoid losing complicated program settings.

Perfect for vintage car, boats with one battery, boats with start & service battery, boats with start & service bank, scooter, motorcycle, Quad/ATV, lawnmower, caravan, and tractor.

Includes two interchangeable connection leads; one with clamps and one with eyelet terminals.

CTEK MUS 4.3 Battery Charger

The CTEK MUS 4.3 (Part No. 56-864) battery charger is perfect for the guy that has everything. CTEK chargers and maintainers work on all of the different vehicles in your garage. The MUS 4.3 is easy to use and offers features not found on typical chargers such as a diagnostic test as well as a recondition mode that can restore underperforming batteries. For weekend race cars or other occasional use vehicles, the charger can be left in maintenance mode to keep the battery in optimal condition so it's ready when you are.
